

Sonetics Four-Position Intercom

SON104

The SON104 4-position intercom system is designed to stand up to challenging environments and severe weather conditions, making it ideal for rugged mobile applications. The intercom connects up to four Sonetics Base Stations, providing clear wireless communication between as many as 16 users. All connected headsets deliver continuous hands-free full-duplex intercom communication. Individual wireless headsets have independent volume controls. The SON104 can also be configured with an optional interface cable to a 2-way radio. With a radio connected to the system, all users hear the radio, and each can transmit on the radio using the PPT or toggle switch on the headset.

Hands-free full-duplex communications
via connected Sonetics Base Stations

Continuous radio monitoring

Protect your investment for up to three years with ComCare Service Programs

Sonetics offers unparalleled peace of mind with its exclusive ComCare Service Program. For less than the cost of a single out-of-warranty repair, ComCare Service provides comprehensive support and extends the warranty on your system for up to three years from the date of purchase. The benefits include priority status on technical support, priority repair time and complimentary return shipping, and discounts up to 50 percent on batteries and non-warranty repairs. ComCare is available for purchase within 90 days of original equipment purchase date. To learn more about the benefits of ComCare, talk to your local dealer, or visit soneticscorp.com.
