

SONETICS COMHUB REFINEMENTS

The Sonetics ComHub is the cornerstone of a completely portable, wireless team communication system. In this latest release, the SCH305, SCH310 and SCH310T gain both ruggedness and refinement.

SCH305

SCH310/T

SLEEK NEW DESIGN

A new inset tray surrounds the Wireless Base Station's control panel, isolating it from other components for easier access.

ENHANCED QUICK START GUIDE

The Quick Start Guide has been moved to the case lid for easier reading to better enable a rapid start.

MORE RUGGED AND DURABLE

New upgrades provide more ruggedness, impact resistance and overall durability.

AVAILABILITY

- The new ComHubs are available now.
- There are no changes to part numbers or list prices.
