

## PORTABLE COMMUNICATION SYSTEMS FOR WIRELESS WORK TEAMS

Sonetics Wireless Headsets let you talk hands-free with your crew while protecting your hearing from dangerous noise. With our listen-through technology, you control how much outside sound to let in so you can maintain situational awareness.

### GET THE JOB DONE WITH SONETICS

Sonetics Wireless Headsets enable natural conversation in the most challenging environments. We combined our industry-leading audio quality with our exclusive auto-leveling, noise-cancelling microphone so that you can understand the subtle differences in what you hear - even in the middle of a loud work zone.

#### Higher Productivity

Talk easily in real time, completely hands-free

#### Better Protection

24dB NRR protects hearing, Stereo Listen-Through provides situational awareness

#### Improved Quality

Make fewer mistakes and watch job performance rise

#### Enhanced Safety

Alerts, instructions and updates are immediate, helping you avoid hazards and risks

*"It filters out your outside noises, which allows you to concentrate on what you're doing... Whenever you speak, people clear down at the other end of the project can hear what you're saying."*
